## CURRENT PROJECT

### **The Pencil Farm** 2006–PRESENT Game Design

The Pencil Farm is a platform for showcasing my games. The focus of the site is high quality, nonviolent, casual browser games. I develop every aspect of the games: concept, graphics, sound, and programming. Although this is primarily a personal project, I do license customized versions of the games to third parties including Miniclip, Kidz Bop, and Advergamer.
